Map Legend  Toggle the legend on and off to see the symbology used on the map and what it means.

Layers  This allows you to turn individual layers on and off, set the visibility range, change their transparency, and more.

Zoom In or Out  Use the + or – key to zoom in or out, respectively.

Zoom to Default  Press this button to go back to the default map extent, showing the entire BMWC.

Center on your location  Press this button to center the map to where you are (must be viewing map on a location enabled device).

Search  This will zoom the map to the selected trail and bring up the location on the trail's status.

Basemap Gallery  Changes the background map. Choose between multiple topographic maps, satellite imagery, and more.

Measurement Tool  Use this tool to measure area or distance on the map, customized by the units of measurement you choose.

Print  Use this tool to print off what you are viewing on the map.

Hide or Expand  Located on the bottom left, this button will control the Legend/Layer/Information panel's visibility.

Latitude and Longitude  The latitude and longitude of your cursor location on the map is displayed in decimal degrees near the bottom left of the map box. Use the button on the left of the coordinate display to switch between continuous (coordinates change as you move your mouse) and locked (coordinates appear when you click on a location).

Hyperlinks  Located in the upper right corner of the map, these links go to the Bob Marshall Wilderness Foundation and the USFS R1 Recreation webpages.
