

Rocky Mountain Ranger District Trail Conditions

Last Updated: August 2023

Initial clearing operations on the primary trails of the district have found blowdown to be heavy in places. Some secondary and tertiary trails have experienced slumping and mudslides over the last two winters, and efforts are being made to ensure proper repair takes place this summer. Travelers should be prepared for blowdown and unexpected conditions.

Fire Danger is currently Very High for the RMRD.

Carrying clearing tools is recommended. Road and trail conditions vary. Trails that have been cleared may continue to experience downfall after the reported clearing date.

Caution should be used near or on a river, stream or lake, especially at water crossings. Even as trails are cleared and reported as such please be prepared to expect the unexpected. Small wash-outs, large avalanche debris areas or other blockages may be encountered. Please report any blockages to the Rocky Mountain Ranger District.

You may reach the Rocky Mountain Ranger District at **406-466-5341**.
